Condensing high efficiency water heater

IR 12-160/20-160/12-200/20-200/24-245/32-245/
24-285/32-285/32-380

Fully room-sealed condensing high efficiency water heater • Automatic gas/air premix burning system • Delivered with low-maintenance inert anodes • Efficiency **98%** (gross) • Flexible flue option allows installations to be placed almost anywhere • Construction of the heat exchangers limits scaling effect • External on-/off- switch • Voltage-free contact for general fault indication to BMS • Maximum set point of 85°C • Easy access for maintenance and service; all components are accessible through the front cover • Completely insulated, low stand by losses • Suitable for plastic flue material • Suited for natural gas and butane/propane

Features and options

- Fully room-sealed condensing high-efficiency water heater
- Automatic gas/air premix burning system
- Delivered with low-maintenance inert anodes
- Efficiency 98% (gross)
- Flexible flue option allows installations to be placed almost anywhere
- Construction of the heat exchangers limits scaling effect
- External on-/off- switch
- Voltage-free contact for general fault indication to BMS
- Maximum set point of 85°C
- Easy access for maintenance and service; all components are accessible through the front cover
- Completely insulated, low stand by losses
- Suitable for plastic flue material
- Suited for natural gas and butane/propane
